

Gracepoint, formerly Mental Health Care, is a private, non-profit behavioral health system founded in 1949. Gracepoint's professionals, including 20 licensed and board-certified psychiatrists, provide comprehensive, recovery-focused services. Gracepoint's caregivers provide 270,000 interactions with people of all ages every year. Gracepoint is Hillsborough County's Baker Act central receiving and hospitalization facility for adults and children.

Gracepoint offers expert care for people with mental illness, substance abuse, addiction and co-occurring disorders.

Diversion Programs

- IMPACT provides assessment, case management counseling, and access to psychiatric services to prevent hospitalizations.
- Gracepoint Mobile Crisis Team provides community-based screenings and services to prevent hospitalizations. (*Tampa Bay Business Journal* Healthcare Hero, 2013)
- Jail diversion for misdemeanors and a Refuge Task Force to prevent homelessness in families at risk.

Special Projects/Initiatives

- Infant Mental Health, a national initiative is implemented in Hillsborough County with Gracepoint's, Infant Family Wellness Program.
- 23-unit apartment serving chronically homeless and mentally ill people with wrap-around Housing First services.
- Forensic residential diversion for non-violent felons. The Legislature selected Gracepoint to operate this level 1 program—the first of its kind in west central Florida. Not only has this program been successful, it has reduced the civil case backlog at the state hospital.

Accomplishments

- Established an outpatient center exclusively treating children and teens.
- Gracepoint received Hillsborough County's first homeless tax credit project, The Graham. (\$19 million)
- Fully integrated health clinic at our Seminole Heights location with Tampa Family Health Center.
- Reinvested into agency infrastructure: remodeled crisis centers, adult outpatient, improved outpatient registration.
- Provided \$2.2 million in charity care last fiscal year.
